Metpost

It's been 150 years since we first started working in the garden and from then we have gone on to define outdoor spaces of all shapes and sizes across the UK.

From our fencing to our decorative flourishes, we're renowned in the industry for our commitment to high quality products and customer service. We work closely with our long list of stockists to ensure the products you need are available close by. What's more, our home delivery service means you can sit back whilst your new garden products are delivered to your door.

At Grange we're keen to stay one step ahead of the trend and have a passion for bringing fresh ideas and designs to the market. Whilst this means that our product range has changed quite a bit since 1868, our core values remain the same. Quality, consistency, reliability and service; it's what we do best.

Garden Collections

Our Valencia, Contemporary and Urban Garden Collections feature a wide selection of matching garden structures and accessories to help you create a coordinated look in the garden. Whether you're a true traditionalist, supremely sophisticated or a progressive trendsetter, our trio of Garden Collections offers a choice of distinct, stylish designs to suit your unique landscaping project.

Urban

Our progressive Urban Collection is perfect for minimalists and lovers of modern architecture. Developed with smaller city gardens in mind, this eye-catching collection features an arch, pergola, planter and slatted screen, all designed to make the most of every sized space.

DID YOU KNOW?

Our trio of collections has been developed after years of research into the latest garden trends and lifestyle habits. With more of us than ever before looking to maximise our outdoor space, our Garden Collections have been created to enable you to do just that!

MATCHING PRODUCTS

With matching Urban Arch and Screen, Pergola and Screen Planter [pages 11, 39, 17, 23](#)

Contemporary

A sophisticated range for those who enjoy a little luxury, our Contemporary Collection incorporates a selection of substantial garden structures, including an arch and arbour, as well as a choice of planters and premium fence panel. Featuring an impressive domed design, the Contemporary Collection is sure to be a real talking point in any garden.

Valencia

Boasting a timeless, continental style, the Valencia range incorporates a diamond trellis design for a classic feel. Comprising a matching arch, arbour and corner arbour, our Valencia Collection is ideal for maximising growing space in the garden as well as soaking up the British summer! Combine with the charming Alderley Trellis range for true timeless appeal.

Garden Structures

What's at the heart of your garden? Garden structures are all about creating that perfect space to take time out and our range of arches, pergolas, gazebos, and arbours have been designed to do just that. Create an ambience with string lighting and cosy blankets for winter or add cushions and candles for the ultimate garden retreat. However you choose to accessorise, a garden structure is sure to provide a real centrepiece, whatever the weather.

COMPLETE THE LOOK

Struggling to make the most of your garden? One great way to maximise the space you have is to 'zone' it according to usage. Think of your garden as a series of outdoor rooms and use trellis or fencing and screens to help partition space into areas for growing, relaxing, storage, dining and so on. Use arches to emphasise entranceways and opt for matching products to connect each outdoor room to the next.

TIMBER

FSC®

The FSC® logo identifies products which contain wood from well managed forests certified in accordance with the rules of the Forest Stewardship Council® FSC®.

All our products are FSC® certified unless otherwise stated.

Understanding characteristics of timber

It must be remembered that timber is a natural product and will be subject to movement and weathering as it seasons. It is not uncommon for small splits to occur (called shakes) in timber when drying, and for warping when timber is allowed to dry too rapidly. These will normally go back when humidity rises. This is nature at work and should not be considered as a fault. **Acceptable limits are defined in the relevant British Standards.** For further information on characteristics on timber, visit our website www.grangefen.co.uk.

Pressure treatment disclaimer

We are committed to using a pressure treatment method across our full range of timber products to provide a superior approach to wood preservation and eliminate the need for costly and time-consuming maintenance. Using a unique mixture of preservatives that penetrates deep into the wood, our pressure treatment system ensures long lasting protection against wood rot and decay. Should the pressure treated wood be cut, drilled or notched, we recommend that a cut end treatment be applied to ensure the effectiveness of the treatment. Paints, wood stains and water repellent can be applied however we recommend you closely follow the manufacturer's instructions.
